INTRODUCTION

Arizona Revised Statute (A.R.S.) §41-2405 (A) 12 requires the Arizona Criminal Justice Commission to submit to the Governor, the President of the Senate, and the Speaker of the House of Representatives an annual report on law enforcement activities funded by the Drug and Gang Enforcement Account (Account) or the Criminal Justice Enhancement Fund (CJEF) as it relates to illicit drugs and drug related gang activity. This annual report requirement was established in 1990.

The Drug and Gang Enforcement Account established in 1987 by Arizona Revised Statute § 41-2402 is used to enhance efforts to deter, investigate, prosecute, adjudicate and punish drug offenders. Funds in the Drug and Gang Enforcement Account are from the following sources:

- (1) Federal monies made available to states by grants under the Edward Byrne Memorial State and Local Law Enforcement Assistance Formula Grant Program;
- (2) Mandatory fines collected for felony drug offense convictions as authorized by A.R.S. 13 Chapter 34;
- (3) Appropriations to the Account by the Legislature; and
- (4) Local cash match funds furnished by grantees.

In 1987, the Arizona Criminal Justice Commission developed and implemented a statewide enhanced drug enforcement strategy, as required to qualify for federal formula grant assistance monies for drug control. The strategy was designed to be compatible with the statutory requirements that created the Drug and Gang Enforcement Account. The strategy is the framework within which the Arizona Criminal Justice Commission allots and distributes all monies in the Account. Each year the strategy is reviewed, refined, updated and published by the Arizona Criminal Justice Commission. A formal application system and extensive open meeting process are utilized by the Arizona Criminal Justice Commission for awarding grant funds from the Account. The strategy was submitted for a 4-year period in 2000, but will continue to be reviewed and updated annually, as needed. This strategy will also cover a 4-year period beginning in 2004.

The Criminal Justice Enhancement Fund (CJEF) was established by Arizona Revised Statute § 41-2401. This statute details those entities that shall receive monies from the CJEF by percentage amounts and the purposes for utilization of the monies.

Introduction

This report provides summary information on projects receiving funds from the Drug and Gang Enforcement Account and on projects funded by the Criminal Justice Enhancement Fund during FY 2003 (July 1, 2002 to June 30, 2003), related to drug activity or drug related street gang activity. Many other valuable and productive drug and gang enforcement and prevention activities are conducted throughout the State funded entirely by state, local and county authorities, without enhancement monies, and are therefore not included in this report.

DRUG AND GANG ENFORCEMENT ACCOUNT

In FY 2003 (July 1, 2002 to June 30, 2003), the Arizona Criminal Justice Commission distributed a total of \$14,412,580 in award funds from the Drug and Gang Enforcement Account to seventy-nine (79) projects in the State. The Account includes \$2,492,555 of local cash match funds deposited by grant recipients.

<u>SOURCE OF MONIES</u>	<u>2003</u>
Federal Formula Grant Funds	\$7,493,650
Drug Fines	4,426,375
State Appropriated Funds	0
Local Match Funds	2,492,555

The Commission authorizes Account funding to projects in the State in six program areas in accordance with the statewide enhanced drug enforcement strategy and the Account guidelines. The six areas are: drug apprehension and prosecution; criminal history records improvement; drug offender adjudication; drug offender detention; drug analysis (forensic services); and drug abuse education/prevention.

In FY 2003, sixteen (16) drug apprehension projects consisting of sixteen (16) multi-jurisdictional, multi-agency drug task forces, established in all fifteen (15) counties in the State of Arizona, received support funding from the Account. There were fifteen (15) drug prosecution projects in the State receiving support funding from the Account. Included in these fifteen (15) projects were full-time dedicated drug prosecutors in thirteen (13) of the fifteen (15) counties in Arizona.

During FY 2003, fifteen (15) criminal history records improvement projects received Account funds.

Drug offender detention projects in two (2) counties received Account funds. Enhanced drug forensic analysis projects including the Department of Public Safety, the Phoenix Police Department, and the Tucson Police Department received Account funds. One (1) grant awarded to the Administrative Office of the Courts passed Account funds through to twenty-eight (28) court related enhancement projects in all fifteen (15) counties in Arizona. FY 2003 did not have any applicants request drug abuse education/prevention funding.

Drug and Gang Enforcement Account

In FY 2003 direct personnel costs made up 89.04 percent of the expenditures from the Account. Other costs associated with the projects such as equipment, operations, space, etc., were supplied by the State, county, and local authorities participating in the projects. Account expenditures provided salaries, overtime, and employee related expenses for 250 criminal justice professionals in the State of Arizona.

In FY 2003 apprehension project activities resulted in the arrest of 3,355 drug offense violators, a 4.63 percent decrease over FY 2002 (3,518); the removal of 112,300 pounds of marijuana; 2,048.71 pounds of cocaine a 6.79 percent increase over FY 2002, and 202.05 pounds of methamphetamine a 99.97 percent increase (101.19) over the same period. Drug traffickers' non-drug assets with a gross estimated value of \$10,615,937 were seized during this twelve month period.

Statistical results have been compiled from the fifteen (15) drug prosecution projects funded by the Account for FY 2003. These results show a slight decline in drug prosecution effort in the State. During this period, 14,254 drug violators were convicted in the State, a 15.94 percent increase over FY 2002 (12,294); 70.45 percent of which were felony convictions. Prison sentences were received by 1,924 of these convicted drug violators; 3,882 received jail sentences; and 7,500 were placed on probation.

The criminal justice records improvement projects receiving support funds from the Account have enabled State, county and local law enforcement agencies to improve criminal justice records automation systems by the acquisition of hardware, software and consultant expertise.

Expenditures from the Account began in March, 1988, a sustained continuous program has been maintained since that time. In the 183 month period (15.25 years) from April 1, 1988

through June 30, 2003, \$61,922,419 was expended by apprehension projects; \$60,056,837 for prosecution projects; \$33,988,626 for adjudication projects; \$14,484,583 drug forensic analysis and drug offender detention projects; \$1,432,222 drug education; and \$6,893,171 for criminal history records improvement projects which had its first expenditure in FY 1995.

The statewide enhanced drug enforcement program has been highly productive. During the 15.25 years, apprehension projects' activities resulted in the arrest of 48,413 drug offense violators. Program activities were responsible for the removal of over 62,002 pounds of cocaine; over 1,928,479 pounds of marijuana; 260 pounds of heroin; and over 2,538 pounds of amphetamine/methamphetamine. Drug traffickers' non-drug assets with a gross estimated value of \$158,723,968 were seized.

The results achieved in the 183 months (15.25 years) of the enhanced drug enforcement program show that for every \$1,279 expended by the apprehension projects one (1) drug violator arrest was made, drug traffickers were deprived of the profit from the drugs seized and also deprived of an estimated value of \$3,278 in non-drug assets seized.

NOTICE

Actual forfeiture of seized trafficker assets is a legal process and the gross estimated value of such seizures is very seldom received by law enforcement and prosecuting agencies. After forfeiture is achieved, lien holders (financial institutions and other legitimate claimants) are paid from the actual forfeiture proceeds. Storage, property maintenance and management costs, and processing and disposition fees are also paid from forfeiture proceeds. The gross estimated value of seizures is used only as an indicator of the negative impact seizures have on drug traffickers' resources.

The statewide distribution of Drug and Gang Enforcement Account funds for FY 2003 for each project is presented by geographical area and program on the following pages.

The Apache County Cooperative Enforcement Narcotics Team is a small, formally organized multi-jurisdictional, multi-agency narcotics task force operating under a board of directors. It consists of local officers working closely with a full time drug case prosecutor to identify, arrest and prosecute drug traffickers, and seize drugs and forfeitable assets.

The primary objective of the task force is to provide a coordinated drug, gang and violent crime investigation and prosecution effort in Apache County to reduce drug abuse and drug trafficking.

ACCENT is administered by the Apache County Sheriff's Office. Participants include the St. Johns Police Department, Springerville Police Department, Eagar Police Department, Arizona Department of Public Safety, and the Apache County Sheriff's Office.

This multi-agency task force has made 1,911 drug arrests since its inception in April, 1988. The task force has seized 104.44 pounds of cocaine, 5,990 pounds of marijuana, 6,990 cannabis plants under cultivation, 54.69 pounds of methamphetamine and 28,179 dosage units of other dangerous drugs. The task force has seized drug law violators' assets with an estimated value of \$2,796,872. This enforcement program provides limited coverage for an area suspected of having high levels of transportation of illicit drugs coming from the United States - Mexico border, through Southern Arizona and New Mexico, and on to other states.

The Border Alliance Group (BAG) is a drug enforcement task force involving Federal, State and local agencies. They are formally organized to identify, arrest and prosecute drug traffickers. The task force is organized to seize drugs and cash assets and pursue investigative leads to upper level trafficking organizations operating in the federally designated Southwest Border High Intensity Drug Trafficking Area that includes all of Cochise County.

The primary objective of the task force is to effectively dismantle narcotics smuggling and street gang networks in Cochise County through aggressive enforcement, prosecution, investigative training, centralized intelligence analysis and asset seizure and forfeiture.

BAG is administered by the Cochise County Sheriff's Office. Participants include the Tombstone Marshal's Office, Benson Police Department, Bisbee Police Department, Willcox Police Department, Douglas Police Department, and the Cochise County Sheriff's Office.

This task force, operating along the 83 miles of remote, sparsely populated United States border with the Republic of Mexico, has continued its high levels of productivity in drug seizures, including over 12,152 pounds of cocaine, 375,153 pounds of marijuana, 4,768 cannabis plants under cultivation, over 18.55 pounds of methamphetamine, and moderate amounts of other dangerous drugs. Since its inception in 1988, the task force has also seized drug law violators' assets valued at an estimated \$15,315,955 and made 2,662 arrests, 68.5 percent were for sales/trafficking offenses. This level of task force activity continues to support the value derived from inter-agency cooperation in the anti-drug campaign, with substantial impact on reducing the availability of illicit drugs.

The Commercial Narcotics Interdiction Program is a multi-jurisdictional, multi-agency unit of federal, state and local officers organized to identify, arrest and prosecute drug traffickers using commercial transportation and air freight/parcel companies to transport drugs and money for drug purchases.

The primary goals are to arrest and prosecute individuals transporting illegal drugs through commercial transportation, to seize illegal drugs being transported, and to seize cash and other financial assets related to illicit drug trafficking.

The Commercial Narcotics Interdiction Program is administered by the Phoenix Police Department. Participants include the United States Drug Enforcement Administration, Maricopa County Attorney's Office and the Phoenix Police Department.

This strategically located unit has continued to maintain high levels of productivity. Since its inception in 1988, it has seized over 574 pounds of cocaine, 49,629 pounds of marijuana, 107 cannabis plants, over 8 pounds of heroin, over 221 pounds of methamphetamine and 994,710 dosage units of other drugs. The unit has seized assets with an estimated value of \$25,623,800 mostly in cash. Of the unit's total of 2,118 arrests, 1,653 (78 percent) were for sales/trafficking offenses. The unit has had a significant impact on drug trafficking use of commercial transportation in Arizona.

This program is administered by the Arizona Attorney General's Office. The Arizona Forfeiture Support Services Project provides legal resources to bring civil remedies to bear on drug traffickers and financiers. Services are available to county attorneys and law enforcement agencies statewide.

The primary goals are to assist the United States Attorney and county attorneys in drug violator asset seizure and forfeiture cases; provide investigative training to attorneys and law enforcement officers, provide professional management and disposition of forfeited property, provide investigative and litigation services on a 24-hour basis and litigate selected cases from other agencies.

The Forfeiture Support Services Project has been a significant asset to county attorneys and law enforcement agencies throughout Arizona. They provide a regularly updated manual on drug violator asset recovery and forfeiture to other agencies, and oversee the management and disposition of seized and forfeited property for participating departments. Training is excellent and highly acclaimed by officers and attorneys involved. This activity has reported the successful forfeiture of drug violator assets totaling \$18,766,187 since July, 1991. A substantial portion of this amount is used by the seizing agencies for law enforcement enhancement and assistance.

Arizona Supreme Court Anti-Drug Adjudication

Source and amount of monies received:

FY 2003 Drug and Gang Enforcement Account Funds: \$2,727,635

This project is administered by the Administrative Office of the Courts. The anti-drug abuse adjudication program provides the court system with grant funds to enhance agencies throughout the State, including the Superior Courts in ten of Arizona's fifteen counties and the Adult Probation offices in Apache, Cochise, Gila, Graham, Greenlee, La Paz, Maricopa, Mohave, Pima, Pinal, Santa Cruz and Yavapai Counties and the Public Defender Offices in Gila, Maricopa and Yavapai counties. The Administrative Office of the Courts also administers a felony drug testing program with the grant funds.

The primary objectives of this activity are to meet the current demands placed upon the court system and the offices of public defenders by the enhanced enforcement and prosecution efforts funded by the Account.

This activity provides enhanced adjudication services for Arizona's criminal justice system. The Administrative Office of the Courts (AOC) maintains administrative authority over twenty-five court-related activities receiving drug grants to accommodate increased caseloads resulting from the enhanced drug enforcement effort in Arizona. Each project has proved to be meritorious and responsible in the administration of funds received. The projects deliver a wide range of services to expedite the judicial process. These services could not have been provided without impacting other court services were it not for the grant funding assistance. These projects are a vital element in Arizona's anti-drug, gang and violent crime effort.

Coconino County Drug Detention Officer Program

Source and amount of monies received:

FY 2003 Drug and Gang Enforcement Account Funds: \$37,064

This program is administered by the Coconino County Sheriff's Office. The program provides one full-time Court Officer to track drug arrests, transport inmates to and from the detention facility and courts and provide support services to other court officers.

The primary objective is to respond to the increased need for detention services resulting from increased drug enforcement and to track the progress of drug cases through the court system in Coconino County.

This project is an enhancement of detention and court services activities needed to support the increased inmate population resulting from the vigorous enforcement activities of the Northern Arizona Metro Narcotics Task Force. Grant funds are used to track drug cases through the system to expedite efficient processing and adjudication, consistent with program objectives.

Maricopa County Multi-Agency Drug Enforcement Detention Strategy

Source and amount of monies received:

FY 2003 Drug and Gang Enforcement Account Funds: \$327,299

The Program is administered by the Maricopa County Sheriff's Office. The activity enhances the Maricopa County jail system by providing 8 full-time detention officers that allow the jail to respond to increases in drug violator arrests and average daily drug violator inmate population demands. This increase resulted from enhanced, county wide drug enforcement activities in Maricopa County, which is one of the six counties that make up Arizona's portion of the federally designated Southwest Border High Intensity Drug Trafficking Area.

The primary objectives are to provide the capability to respond to the increased need for detention services generated by the multi-jurisdictional drug enforcement strategy in Maricopa County and assure adequate supervision and control of inmates, detention officer training and required support staff.

This program provides vital detention services in the Maricopa County jail. During 2002 the average daily inmate population was 7,892, a 20 percent increase from 1999 to 2002. An average of 118,755 inmates was processed during 2002. The benefit of this enhanced funding allows the Maricopa County Jail to keep one additional housing facility open that would otherwise not be possible. The number of prisoners in the jail on drug or drug related charges makes up a substantial portion of the total inmate population. Grant funds maintain the number of detention officers at a level that facilitates supervision and control of drug offenders.

This project is administered by the Arizona Department of Corrections. A.R.S. § 13.3821 was modified in 1998 and requires that the Department of Corrections identifies and registers sex offenders prior to release from prison. The grant funds were used to purchase a Live Scan workstation that will help law enforcement agencies receive timely dissemination of sex offender release information that includes fingerprints and a photograph of the offender.

This goal of the Department of Corrections is to register sex offenders prior to release from prison and assist in the prosecution of those who fail to re-register upon relocating after their initial registration and release. This program has registered 350 sex offenders prior to release since March 2003.

The Department of Corrections has purchased and installed the equipment. Information is being disseminated to all law enforcement agencies throughout the state.

Arizona Department of Public Safety

Source and amount of monies received:

Includes Local Cash Matching Funds:	5,413

This project is administered by the Department of Public Safety. These grant funds were used to replace twelve "dumb" computer terminals with personal computers. The "dumb" terminals were becoming obsolete, difficult to repair and to find replacement parts.

The goal of the Department of Public Safety was to replace the "dumb" terminals within the Central Repositories Criminal History Records Section with personal computers and associated software.

Twelve personal computers and associated hardware/software have been purchased. This has allowed the Criminal History Records Section to perform day to day data entry and updates, thus improving criminal history records to improve the Brady checks prior to the issuance of permission to purchase firearms.

This project, administered by the Buckeye Police Department continued to build on the records management system initially purchased in 2000 with Arizona Criminal Justice Commission grant funds.

The goal of the Buckeye Police Department is to allow for records management systems that better monitor statistical data and make digital photo files more effective and cost efficient.

Installations of the new modules are complete. This has allowed the Buckeye Police Department the ability to integrate photos, mug shots, and line ups into the police department's main Records Management System (RMS) hub. The project is a precursor to Buckeye Police Department and Tolleson Police Department to begin using laptop computers in their patrol cars and downloading information into the RMS.

Cochise County Sheriff's Office

Source and amount of monies received:

FY 2003 Drug and Gang Enforcement Account Funds:	\$32,000

The goal of this project is to further enhance the Cochise County Sheriff's Department automation system by sharing information with the statewide database maintained by the Department of Public Safety.

The final connection between the Spillman Technologies and the Department of Public Safety database is complete. This connection has enabled a more efficient way to relay criminal history records information to the state database and also eliminates the officers from having to enter information into the records management and the AZAFIS system.

This consortium applied for and received funds under CJRIP V. Since the completion of Phase I some of the consortium agencies have upgraded to a T1 circuit that is faster and more reliable. With funds received, Florence and Superior will upgrade to the same standard from a 56K from relay by installing T1 circuits.

The primary objective is to increase the speed and reliability of record keeping and communication systems for Florence and Superior through circuit stability and bandwidth.

Florence requested a change in the scope of work to purchase a computerized photo and fingerprint system to set the foundation for future Automated Fingerprint Information System capabilities (AZAFIS). Superior installed the T1 circuits as planned.
